*Informal*  
MEMO FOR [REDACTED]

25X1A9a

25X1X4

1. Since this paper is highly tentative and actually does <sup>little</sup> more than authorize consideration of [REDACTED] formulating and undertaking a program for [REDACTED], there wouldn't seem to be any reason to object to [REDACTED] it.

2. The <sup>only joker in</sup> [REDACTED] the paper is [REDACTED] the recommendation in the final paragraph that a small group be charged with the conduct of the actual operations. It seems to me that the authority and composition of this group should be further spelled out.
